A Leap Forward in User-Friendly Experience with Brinno's simplified navigation

Easy Time Lapse Camera for All

BCC300's enhanced One-page setting menu simplifies recording for both professionals and novice users, requiring just a few clicks to start capturing stunning time-lapse.

Sunlight Readable Display

Bright environments are no match for Brinno's new IPS LCD screen. Check liveview and adjust settings from a crystal-clear display even under direct sunlight.

Multilingual User Interface

Change your camera operating language and enjoy our new fully optimized UI in your desired language. UI available in 8 languages: English, Deutsch, Italiano, Español, Français, 日本語, 繁體中文, 简体中文

Versatile Accessory Support for Any Environment

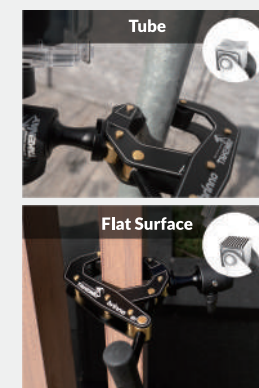

BCC300-C

Flexibility and stability with industrial-grade clamp

Package Includes Waterproof Housing and Clampod.

Unique design of clampod includes unlimited range of spherical ballhead and various tread material on cubic, allowing ease of securing the clamp to cylindrical, flat, or slippery surfaces.

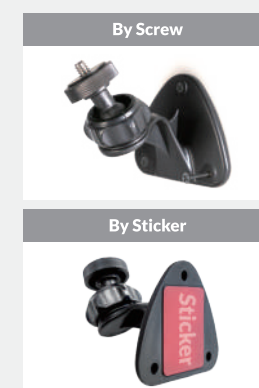

BCC300-M

Mount the camera to wherever possible

Package Includes Waterproof Housing and Wall Mount.

The wall mount can be mounted to flat surface using either screws or stickers. The 360 rotation capability allows limitless shooting angle from any location.

Diverse Applications

Time lapse camera is the perfect tool to witness long progress in a matter of minutes. Capturing and condensing the subtle changes over a long time, time lapse photography can be applied to many different situations that seem tedious at the beginning but will create stunning footage afterward.
